KEEP YOUR PLANT **RUNNING**

Industrial Solutions & Spare Parts
For Heavy Industries

NINH DA INDUSTRIAL SERVICES TRADING COMPANY LIMITED

CHALLENGES IN INDUSTRIAL PLANT OPERATIONS

Downtime is not just a problem – it is a cost.

Unplanned Downtime

→ Production stops, causing major losses

Equipment Wear & Failure

→ Vibration, dust, and harsh conditions reduce lifespan

Difficult Spare Parts Sourcing

→ Wrong parts or long lead time

High Maintenance Cost

→ Frequent repairs & inefficiency

Safety Risks

→ Installation & operation hazards

IMPACT

→ Production Loss

→ Increased Operating Cost

→ Reduced Efficiency

→ Equipment Damage

→ Safety Incidents

Downtime = Cost + Risk + Lost Productivity

OUR SOLUTION

We don't just supply products – **we solve your plant's challenges.**

REDUCE DOWNTIME

- ✓ Fast supply of correct spare parts
- ✓ Reliable equipment for continuous operation
- ✓ Minimize unexpected failures

OPTIMIZE PERFORMANCE

- ✓ Improve system efficiency
- ✓ Reduce vibration & wear
- ✓ Enhance productivity

ENGINEERING SOLUTIONS

- ✓ Technical consultation
- ✓ Customized solutions for each plant
- ✓ Support installation & operation

Performance

ABOUT NINH DA

Your Trusted Partner in Industrial Solutions

Established in 2017

Specializing in spare parts and solutions for steel plants and heavy industries.

Revenue growth

800,000 USD (2023) → 1,000,000 USD (2024) → 2,000,000 USD (2025) → 3,000,000 USD (2026)

Human resources team

A young and dynamic with solid experience in the industrial sector.

Field of activity

Providing industrial equipment and solutions across industries including steel, thermal power, cement, chemical, food processing, pharmaceutical, and energy.

We Understand Your Plan –
and we know how to optimize it

VISION – MISSION – CORE VALUES

VISION

To become a leading provider of industrial equipment and solutions in Vietnam, and a trusted partner for both local and FDI enterprises, delivering optimized operations, higher efficiency, and reduced costs.

MISSION

Optimized Solutions:

Deliver efficient industrial solutions that enhance performance and reduce operational and maintenance costs

Customer Partnership:

Provide end-to-end support from consulting to installation and maintenance

Sustainable Relationships:

Build long-term partnerships based on trust and responsibility

National Contribution:

Contribute to the development of Vietnam's industrial and supporting industries sector

CORE VALUES

Quality: Product excellence is our top priority

Reliability: Commitment to reliability and trust in every solution

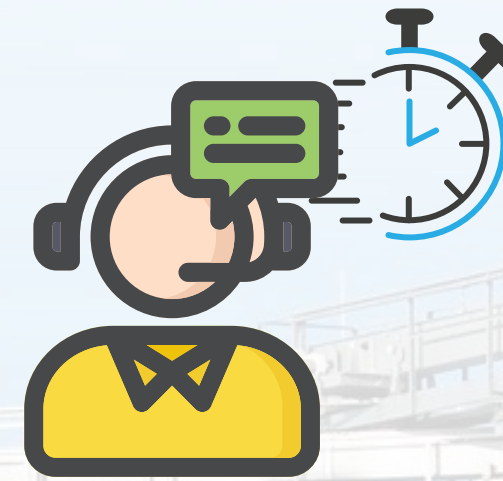

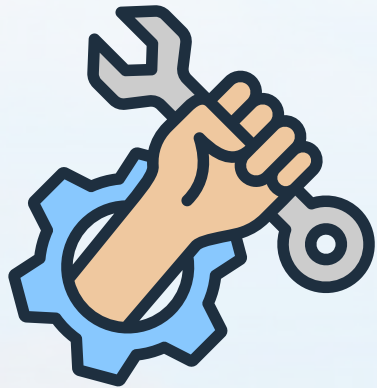

Innovation: Continuous improvement and advanced technology adoption

Partnership: Sustainable cooperation with shared benefits

Responsibility: Dedicated after-sales service and 24/7 technical support

WHY CHOOSE NINH DA?

More than a supplier — we are your solutions partner

ENGINEERING-BASED SALES

We understand real plant operations, not just product specifications

SOLUTION-ORIENTED APPROACH

We analyze problems and deliver practical, optimized solutions

RELIABLE SUPPLY NETWORK

Access to multiple international brands and manufacturers

FAST RESPONSE & SUPPORT

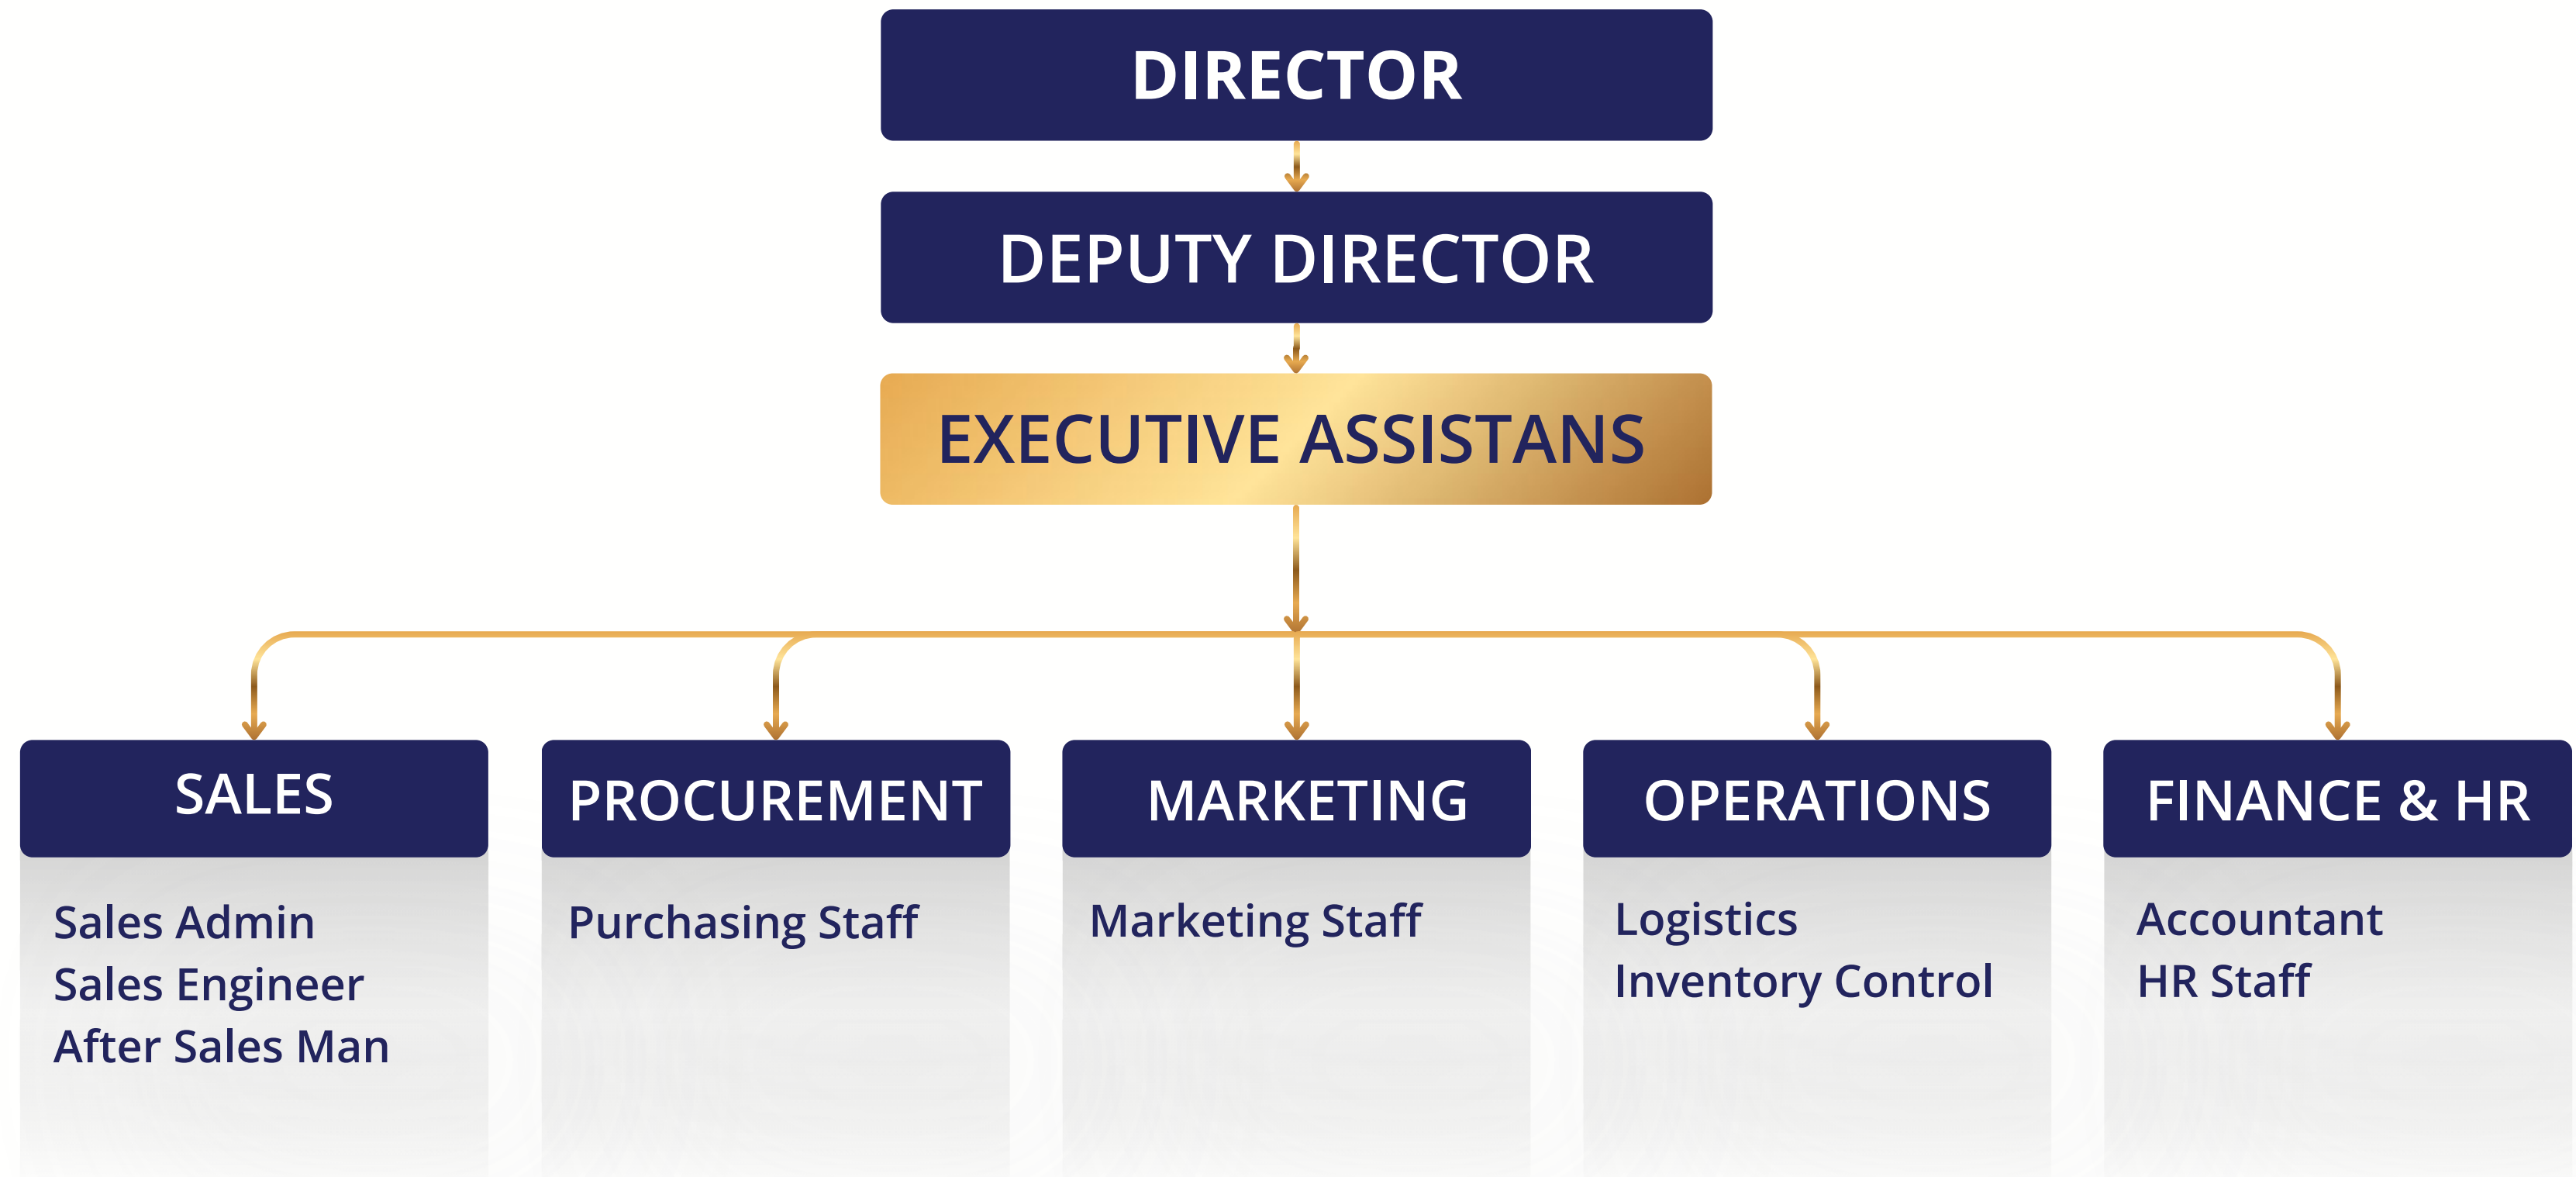

Quick quotation, technical consulting, and on-site support

COST OPTIMIZATION

We help reduce long-term maintenance and operational costs

We focus on solving your problems — not just selling products

ORGANIZATIONAL CHART

TRANSMISSION SOLUTIONS

Ensure stable and reliable power transmission for your plant

MOTOR REDUCERS

Our Solutions

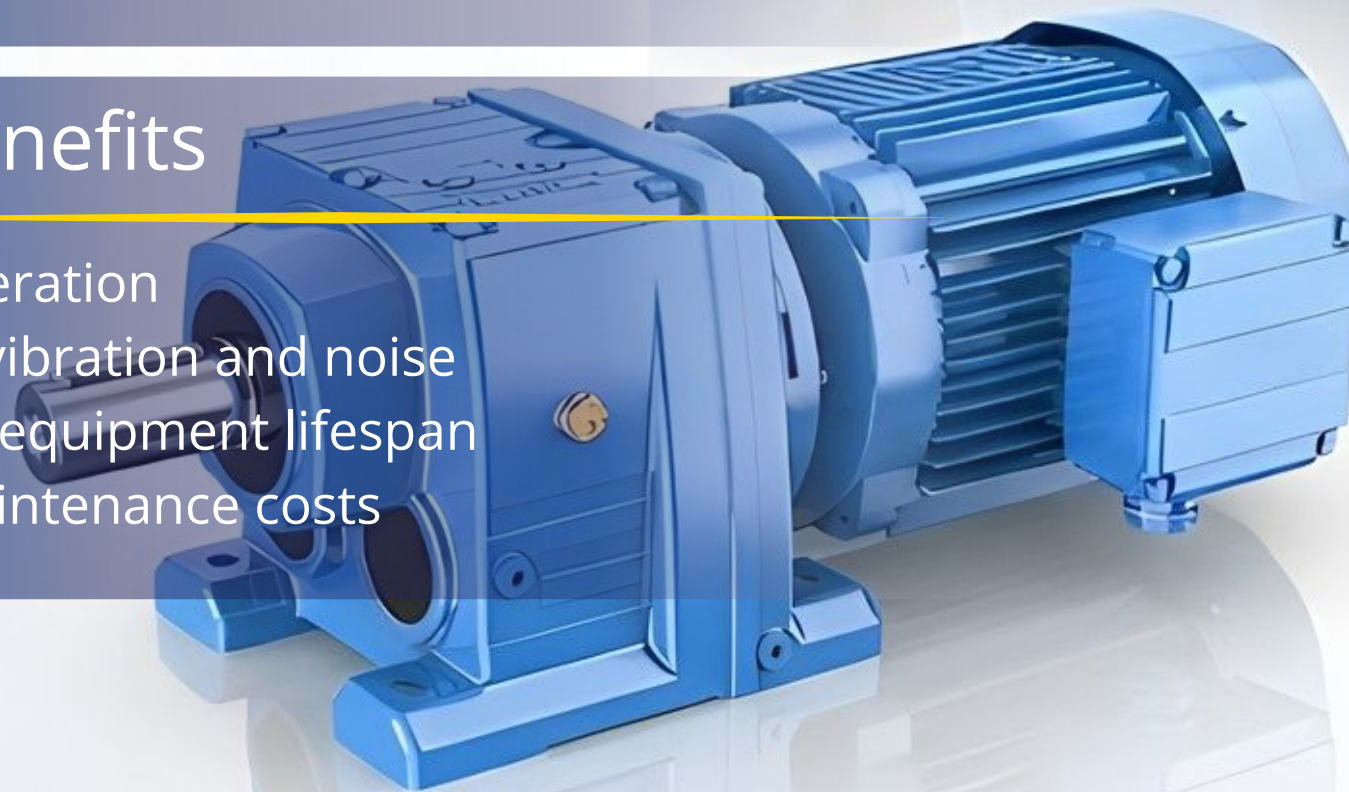

Gearboxes & Motor Reducers, Couplings & Locking Assemblies, Industrial Chains & Sprockets

Applications

Conveyor systems, Mixing systems, Rolling mills
Heavy-duty industrial machines

Key Benefits

Stable operation
Reduced vibration and noise
Extended equipment lifespan
Lower maintenance costs

ROTARY JOINTS

Ensure reliable fluid transfer in rotating equipment

Our Solutions

- Single – Passage Rotary Joints
- Multi – Passage Rotary Joints
- Steam Rotary Joints
- High – speed and High-pressure Rotary Joints

Applications

- Paper & Packaging Machines
- Steel & Rolling Mills
- Plastic and Rubber Processing Equipment
- Textile Machinery
- Food & Beverage Equipment

Key Benefits

- Continuous and stable fluid transfer
- Reduced leakage and maintenance
- High – temperature and pressure resistance
- Extended equipment lifespan

ROTARY JOINTS

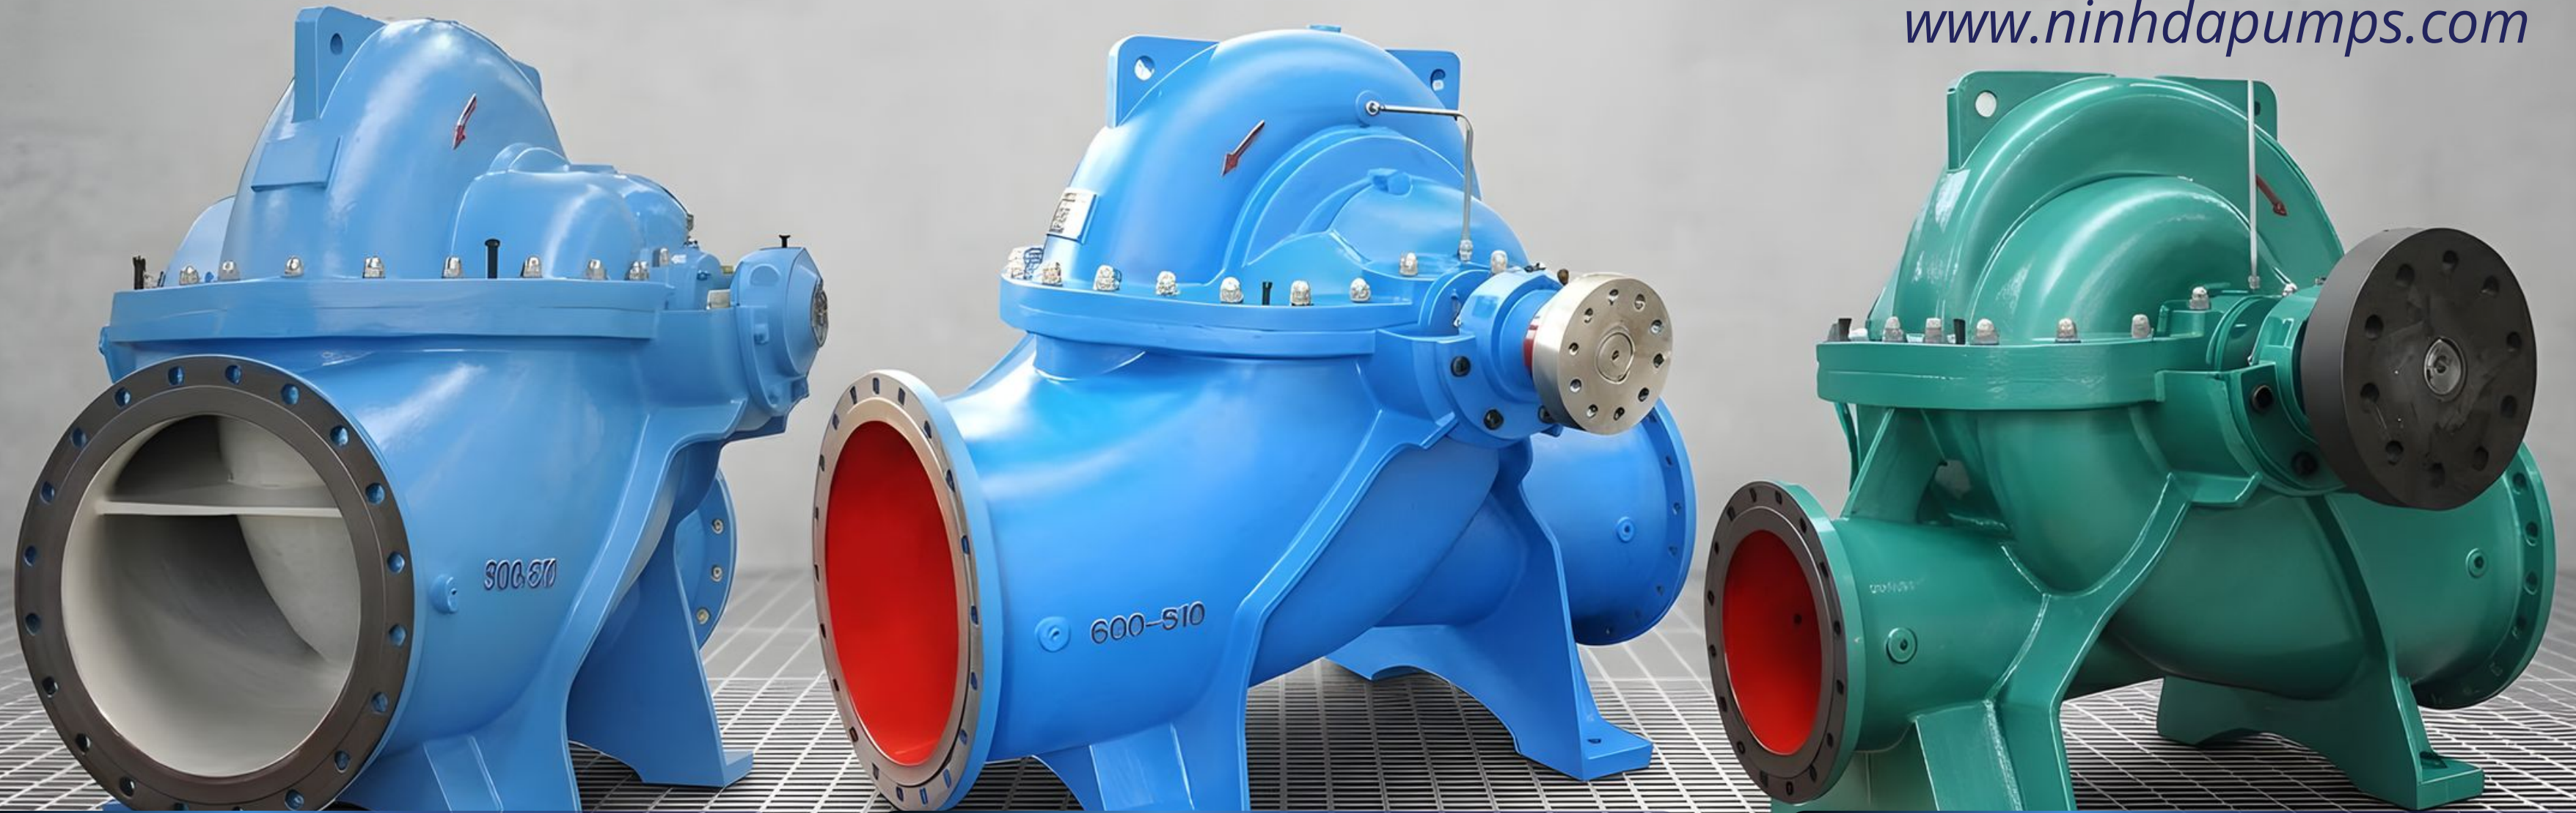

FLUID & PROCESS SOLUTIONS

Optimize fluid systems for maximum efficiency and reliability

WATER PUMPS

www.ninhdapumps.com

Our Solutions

Industrial Pumps (Control & Isolation)
Heat Exchangers, Piping & Flow
Components

Applications

Cooling systems, Water treatment
systems, Chemical processing, Steel &
cement production lines

Key Benefits

Stable flow control
Reduced energy consumption
Minimized leakage and failure
Improved system efficiency

PIPING EQUIPMENT SOLUTIONS

Ensure safe and efficient fluid flow across your systems

PIPING

EXPANSION JOINT

Our Solutions

Industrial Pipes (Carbon Steel, Stainless Steel, HDPE)
Pipe Fittings (Elbows, Tees, Reducers)
Flanges & Gaskets
Valves & Flow Control Components

Applications

Water Supply & Treatment Systems
Chemical Processing Plants
Oil & Gas Pipelines
Power Plants & Industrial Utilities

VALVES

Key Benefits

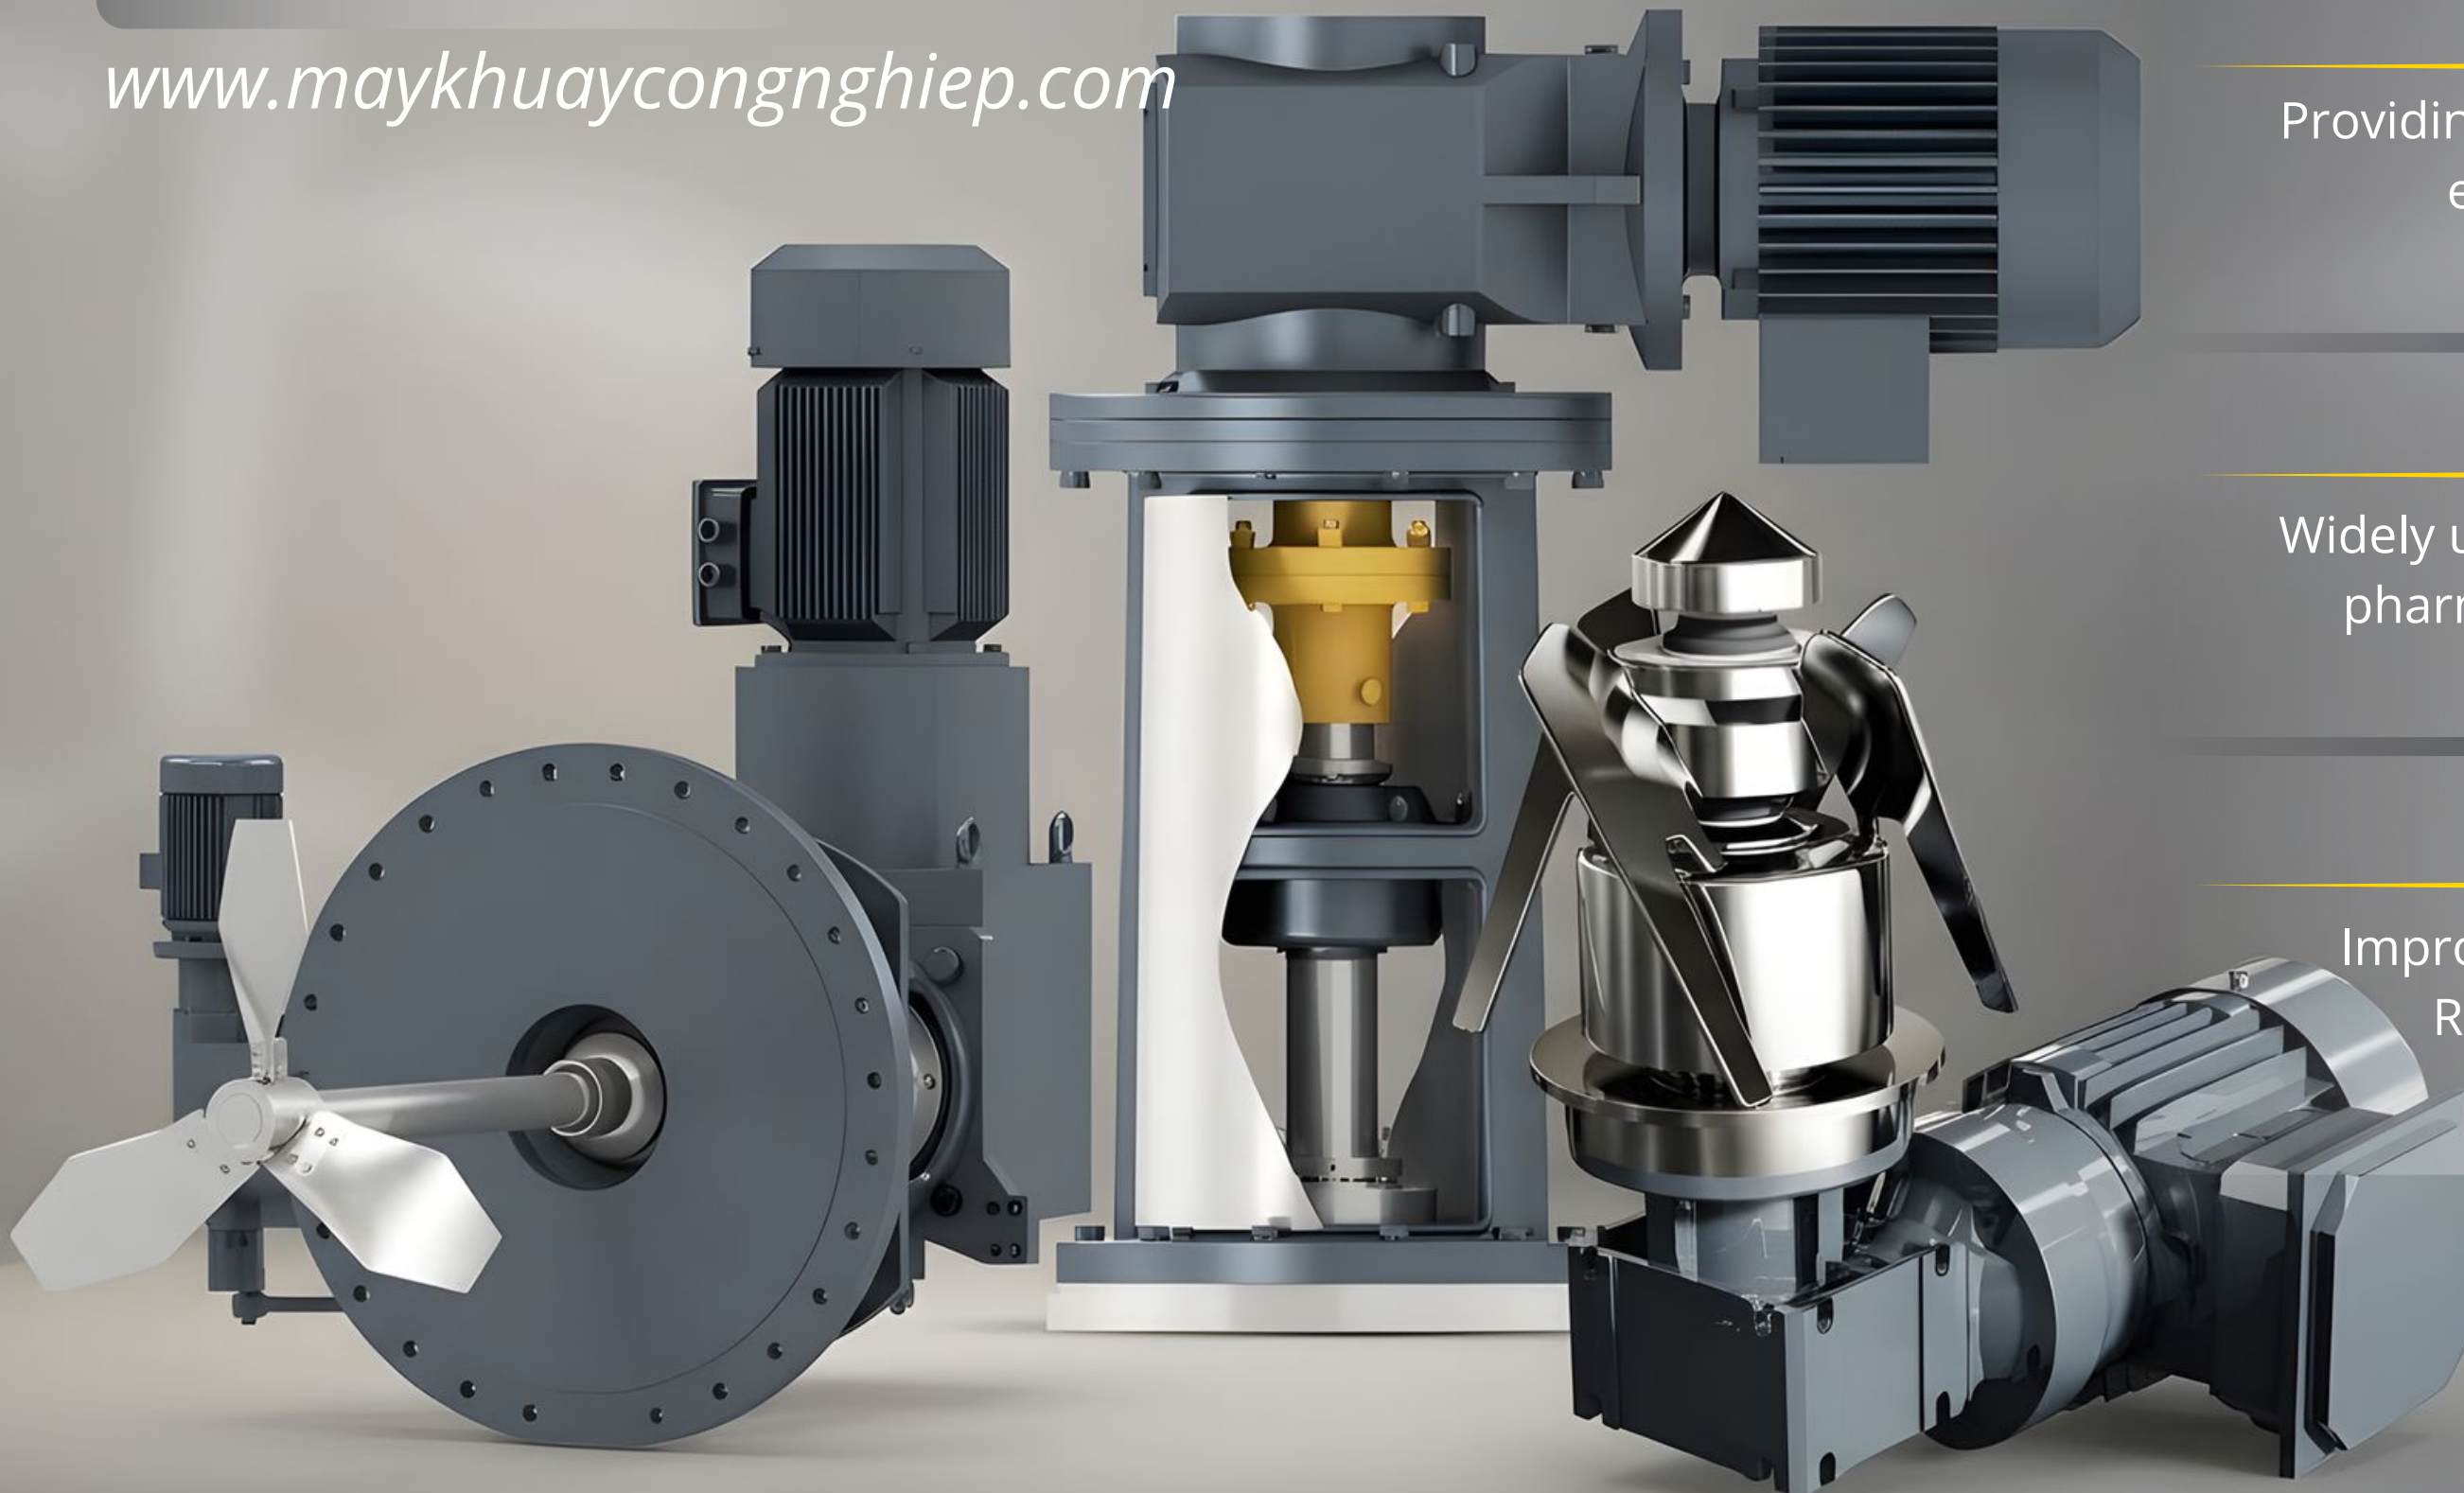

Safe and stable fluid transportation
High corrosion and pressure resistance
Reduced leakage and maintenance costs
Long-term operational reliability

Industrial Mixing Solutions for Efficient Production

Optimize mixing processes for maximum efficiency and reliability

MIXERS

www.maykhuaycongngghiep.com

Our Solutions

Providing customized mixing systems tailored to each industrial process, ensuring optimal performance and long-term reliability.

Applications

Widely used in industries such as chemical, food, pharmaceutical, water treatment, and cement production.

Key Benefits

Improve mixing efficiency and product quality
Reduce downtime and maintenance costs
Ensure stable and continuous operation

ELECTRICAL & AUTOMATION EQUIPMENT

Enhance process control with intelligent automation solutions

Electromagnetic Flowmeter

Our Solutions

- Process Indicators & Recorders
- Signal Isolators & Signal Generators
- Temperature Sensors & Transmitters
- Pressure & Differential Pressure Transmitters

Applications

- Water & Wastewater Treatment Plants
- Chemical and Oil & Gas Companies
- Food & Consumer Goods Industries
- Energy, HVAC, Data Centers

Key Benefits

- Precise real-time monitoring and control
- Optimized system performance
- Easy integration with PLC and SCADA systems
- High durability, meeting international industrial standards

INVERTER SOLUTIONS

Optimize motor performance with intelligent speed control

Our Solutions

Control Panels & Electrical Cabinets
PLC, HMI & SCADA Systems
Sensors & Industrial Instrumentation
Inverters (VFD) & Motor Control Systems

INVERTER

Applications

Manufacturing & Production Lines
Water & Wastewater Treatment Systems
Food & Beverage Processing
Chemical & Pharmaceutical Plants

Key Benefits

Precise control and monitoring
Increased productivity and operational efficiency
Reduced downtime and human error
Energy savings and optimized performance

FOG CANNON SOLUTIONS

Control dust effectively with high-performance misting systems

FOG CANNON

www.phunsuongdapbui.com

Our Solutions

- Fixed Fog Cannon Systems
- Mobile Fog Cannon Units
- High-pressure Misting Systems
- Automated Dust Control Solutions

Applications

- Construction Sites
- Mining & Quarrying Operations
- Steel & Cement Plants
- Waste & Recycling Facilities

Key Benefits

- Effective dust control and cleaner air
- Lower environmental impact & compliance-ready
- Optimized misting, less water use
- Safer workplace & better visibility

BOLTING & TORQUE SOLUTIONS

Controlled tightening and tensioning for critical bolted joints

Our Solutions

Hydraulic Torque Wrenches
Hydraulic Bolt Tensioners
Torque & Tensioning Pumps
Flange & Hydraulic Maintenance Tools

Applications

Oil & Gas / Petrochemical Plants
Power Generation & Wind Energy
Mining & Heavy Machinery
Shipbuilding & Industrial Maintenance

Key Benefits

Precise & controlled bolt tightening
High torque capability for critical joints
Suitable for confined & low-clearance spaces
Reliable, efficient maintenance operations
